

## Technical data: Kränzle Silent 120

|   | Kränzle Silent 120      |
|---|-------------------------|
| Operating pressure, continuously adjustable | 10 - 120 bar            |
| Nozzle size                                 | 20028                   |
| Nozzle size Dirtkiller                      | 030                     |
| Admissible overpressure                     | 135 bar                 |
| Water output                                | 7 l/min. (1,400 r.p.m.) |
| Inlet water temperature                     | max. 60 °C              |
| Suction height                              | 1,5 m                   |
| Hose drum                                   | no                      |
| Steel-weave high-pressure hose              | 10 m                    |
| Dirtkiller                                  | no                      |
| Detergent injector                          | special accessories     |
| Connected load                              | 230 V ~, 50 Hz          |
| Intensity of current                        | 7,5 A                   |
| Power input                                 | P 1 - 1,6 kW            |
| Power output                                | P 2 - 1,0 kW            |
| Weight incl. accessories                    | 25 kg                   |
| Dimensions including handle in mm           | 300 x 330 x 800         |
